

Spectrum Communications Now an authorized Firecom™ dealer

Spectrum Communications is proud to announce that we are an authorized Firecom™ dealer. Firecom designs and manufactures headsets, intercoms, and radio interfaces for the fire and rescue industry. Focusing on quality hearing protection, ease of use, and affordability, Firecom has maintained positive relationships with numerous fire departments. These relationships assist in the research and development of product advancements, improved safety, and communication effectiveness.

The Firecom™ wireless system operates on a proprietary interference-free band and has over three times the linear range and nearly 15 times the coverage of Bluetooth™.

For more information on Firecom™ products, contact your nearest Spectrum Communications location.
