SM and SP Series

Smart Headsets for High Noise Environments

• Communication • Awareness • Protection •

Sensear's SM Series are the next generation of industrial communication headsets. Unlike other noise canceling headsets, workers can now communicate face-to-face, as well as through Bluetooth, two-way radio, and headset-to-headset via Sensear's Short Range. The SENS® Technology allows users to remain aware of surrounding noises and hazards while it protects hearing.

Sensear's Unique Technology

Sensear's industry-changing SENS® technology simultaneously combines speech enhancement with noise suppression to deliver a total high noise communications and protection solution by recognizing the different properties of speech and background noise. SENS® enables users to remain aware of their surroundings, communicate in noisy environments and protect their hearing from harmful noise.

Speech Enhancement + Noise Suppression + Situational Awareness = SENS TECHNOLOGY
